About me

I'm a developer with extensive experience in frontend, backend, and project integration. I'm a collaborative team player who prioritizes transparency and continuous learning to deliver high-quality solutions that meet client and user needs.

Professional Experience

10/2020 – present Palma, Spain	**Metro Markets GmbH,** *Senior Frontend Software Engineer*

- **Tech Initiative lead** for a company Initiative
- Architected the project migration process through careful coordination of team members, resulting in a seamless transition with zero downtime and zero negative impact on user experience
- Conducted interviews with new joiners, evaluating their technical skills and cultural fit.
- Refactored and optimized key components in the React migration, resulting in improved performance and better user experience.
- Implemented Cypress & Google Analytics in the project, providing important tools for testing and analytics.
- Led and aligned topics with different teams, including developers, designers, and testers, to ensure the project met its goals.
- Maintained continuous alignment between the UI/UX team and development team, ensuring a cohesive and consistent approach to the project.

09/2019 – 10/2020 Palma, Spain	**trivago,** *Frontend Software Engineer*

- Moderated and organized the Frontend Guild, a group of developers dedicated to advancing best practices in frontend development.
- Created and maintained features for various Angular projects, ensuring high-quality code and user experience.
- Gained experience in PHP and MySQL, enabling a more comprehensive understanding of backend development.
- Maintained constant alignment with the QA team, ensuring a smooth development process and high-quality outcomes.
- Created new components following the SOLID principle, resulting in more efficient and scalable code.
- Traveled frequently to Germany for team building, building stronger relationships and improving collaboration between team members.

03/2018 – 09/2019 Palma, Spain	**Brújula, a CMC company,** *Fullstack developer*

- Created and organized "Technical Days," a regular event where team members shared their knowledge on various technical topics.
- Implemented Blue Pay for Bahía Principe Hotels website, ensuring secure payment processing for online bookings.
- Created the website *www.illessostenibles.travel* ⧉ from scratch using React and Redux, resulting in a modern and responsive site that met client needs.

Tech Stack

- **Client-side:** ReactJS, Redux/Ngrx, Angular, Typescript, NextJS, Storybook & Cypress
- **Server-side**: Webpack, NodeJS, Docker, PHP, MySQL & Java
- **Other**: Figma, Zeplin, CI/CD GitLab pipeline, Google Cloud, Google Analytics & Phrase

Education

09/2017 – 06/2019 Palma, Spain	**FP Superior Dual,** *CIFP Frances de Borja Moll*
09/2015 – 06/2021 Palma, Spain	**Computer Science degree,** *UOC (remote)*

Courses

Angular 8, *Udemy* ⊡

Introduction to Python 3 programming, *EDUONIX* ⊡

Intermediate React v5 & Typescript, *frontendmasters* ⊡

Webpack 4 fundamentals, *frontendmasters* ⊡

Strong points

- **Proactive**: I thrive on staying busy and constantly seeking new challenges and opportunities.
- **Team player**: I believe that collaboration and teamwork are essential to achieving success, and I value the contributions of my colleagues in achieving our goals.
- **Transparent and knowledge-sharing**: I am committed to open and honest communication, as well as sharing knowledge and insights with others to foster growth and improvement.
- **Continuous learning:** I am passionate about staying up-to-date with new technologies and trends, and I am always eager to expand my knowledge and skills beyond the frontend.
- **Fast learner:** I am quick to pick up new concepts and technologies, and I enjoy the challenge of tackling new problems and learning new things.
